

Katy High School Class of 2024 Graduation Photography

Marc Nathan Photographers, Inc. will capture each graduate's photo with the principal as well as a quick individual pose. To receive a link to view the graduate's images, parents must register and provide contact information as Katy ISD cannot release this. To ensure you receive best pricing options, registration should be done PRIOR to the May 17th commencement date!

Please note there should only be one registration for each graduate. All parents, grandparents, additional family members, etc. should be under the same registration. You'll receive a registration code as confirmation that your registration is complete.

Registration will be discontinued the day after each commencement, but parents can contact the photographer by email, grads@mnathanphoto.com, to request a photo link. Requests may take 3-5 business days due to their commencement schedule.

There is no obligation to order and parents may opt-out of receiving emails and/or texts after the first communication.

Questions? Contact grads@mnathanphoto.com.
