Mission Statement

In partnership with parents and community, James E. Taylor High School is committed to providing a balanced program of academic study and extra/co-curricular programs in a safe and caring environment. Our intent is to prepare our students to excel in the areas of lifelong learning and citizenship, and achieve both personal and professional success.

Vision

We believe that in order to earn personal and professional success...

- Students must learn to THINK critically and solve real world problems with information that can be difficult or ambiguous.
- Students must learn that success is more often born of WORK, persistence, and grit, than of talent and natural ability.
- Students will GROW their intellectual and physical skills through hard work, practice, and belief in themselves.

We believe that we are responsible for ensuring that students think, work, and grow.

Comprehensive Needs Assessment

Demographics

Demographics Summary

Taylor High School is an established High School of almost 40 years and serves a population of almost 3,000 students 9-12. We have a moderately diverse population at Taylor High School. Our school is made up of 44% White, 27% Hispanic, 17% Asian and 9% African American. In the past several years our At Risk and Economically Disadvantaged populations have been increasing slowly. We currently stand at 27% At-Risk and 27% Eco. Disadvantaged. The ESL population has increased as well over the past few years. Currently our special programs consist of 6% ESL, 7% special education, and 11% gifted and talented.

Demographics Strengths

1. The students at THS aspire to excellence. They are highly engaged and really try hard to do their best both academically and socially. It is evident that the students want to come to school by the high attendance rate.

2. The parents and community are strong supporters of THS. They are always looking for ways to support students and faculty. All you have to do is ask and you will have multiple people step up to assist in whatever is needed. We have active participation from parents through Booster clubs and PTSA.

3. The staff is committed to student success. A lot of the staff have been here for years and have established a culture of excellence. The new staff that have come to Taylor have said that this is one of the best schools they have seen. The level of dedication staff members demonstrate towards their jobs and the way they approach students is what makes Taylor successful.

Problem Statements Identifying Demographics Needs

Problem Statement 1: Our data shows we are still struggling in the area of student achievement with our Special Education and ELL students. Although we showed improvement in our scores from 17-18, our scores still show a gap between our other student populations as follows: English I scores for ESL went from 24% to 42% approaches grade level. English II scores for special ed went from 29% to 48% approaches grade level. Root Cause: The root cause for the gap between the performance of our ESL students and other student populations is in part due to a need for more targeted strategies and practices that meet our ELL student needs. Not many certified staff in core areas. While our Algebra I scores continue to increase from 68% approaches grade level
in 13-14 to 89% in 18-19, our English I scores have dropped from 48% to 42%.

**Problem Statement 2**: Our special education population continues to increase, from 5.3% in 13-14 to 7% in 18-19. Scores for EOC for both Algebra I and English I have dropped for our special ed population with 89% approaching grade level in Algebra in 13-14 and only 69% in 2019. English I scores have also decreased from 56% to 49%. **Root Cause**: More targeted staff development for special education staff in the content areas that will improve strategies used in the classroom. We also need to adjust the Master Schedule to allow SPED staff and General Ed. staff to have time during the day to meet and plan specifically for the needs of our special education students.
Student Academic Achievement

Student Academic Achievement Summary

Student achievement continues to be strong at Taylor High School. The 2018 Texas Accountability Summary reports that we have earned distinctions in all 7 designations: Academic achievement in ELA, Math, Science, Social Studies, Student Progress, Closing Performance Gaps, and Post-Secondary Readiness. Our students made some moderate gains with our advanced scores. However, there are still areas to address, specifically with the performance of our Special Education and English Language Learner students. In the area of AP testing Taylor is significantly above the state and the Nation when it comes to students scoring 3+ on their AP tests. We also made some gains in Postsecondary Readiness (Index 4).

Although we have a high percentage of students approaching grade level on all EOC's we still have work to do on students meeting grade level and masters grade level. We also have to work on closing the gaps for Hispanic, African American, economically disadvantaged, At Risk, ESL and Sped Populations on certain EOC's.

Our staff quality is very strong (100% highly qualified.) Many staff members have multiple certifications and continue to increase their certifications, which is crucial as our number of courses offered increases. Staff turnover was on par from previous years, as we hired 30 professionals and paraprofessionals. The number of staff who have been at THS for more than 5 years is high. This is a key factor in the success of our school and demonstrates that people want to stay at THS.

Student Academic Achievement Strengths

THS earned TEA distinction designations in 7 out of 7 possible areas. This is a huge accomplishment considering there were just a little over 400 high schools statewide meeting all distinctions.

In the area of student progress the percentage of students who met or exceeded progress increased slightly in some areas. The percentage of ESL students who met or exceeded progress increased as well.

We have added some very strong staff members in areas of high need.

Having IC's and DC's in the interview process has helped with recruiting quality staff.

We added strong staff in key areas such as ELL and some AP level courses as well.
Problem Statements Identifying Student Academic Achievement Needs

Problem Statement 1: Our data shows we are still struggling in the area of student achievement with our Special Education and ELL students. **Root Cause**: The need for stronger Tier I instruction and targeted strategies, as well as differentiated instruction for the specific needs of the learner.
School Processes & Programs

School Processes & Programs Summary

Taylor High School has extremely high quality programs of instruction which are supported by district-developed curricula and ongoing strategic assessment. Additionally, our instruction is supported by 4 full time instructional coaches and 1 full time testing facilitator. Our PLC's, for the most part, are high functioning and teachers are committed to looking at data and making the necessary adjustments to instruction to benefit students.

Instructional: Implementation of Fundamental 5 with concentration on: writing across the content areas, the We will and I will statements (HOOK), and closure. Collaborative planning. Utilization of data to drive instructional decisions. Utilization of a variety of strategies to meet the needs of all students.

Support and Training: Provide staff with multiple levels and varieties of professional development. Utilizing IC's to provide just in time trainings to staff. Continuing to with teachers to find valuable PD that aligns with their T-TESS goals.

Leadership development: Allow staff to have input, listen to staff, encourage risk taking and new ideas about instruction, and provide staff leadership opportunities in a variety of areas.

Teachers are starting to expand their use of canvas, but this is still a work in progress. Training on canvas and setting campus wide expectations is going to be the key to the deeper implementation of this tool.

School Processes & Programs Strengths

The teacher work week is structured so that formal Professional Learning Community (PLC) meetings occur once per week. These meetings are usually attended by an instructional coach (for core content areas) and sometimes by a campus administrator. These PLC meetings provide the time needed for planning for instruction and assessment of students as teachers analyze classroom and district assessment data and plan their instruction accordingly. Content department meetings occur monthly to discuss school operations as well as provide instructional professional development.

We utilize our Enrichment time twice a week to allow for extra time for intervention, retesting, tutorials, and enrichment activities during the school day. This provides our students multiple opportunities to be successful.
We have a very strong TPA which supports our whole school community.

Our CAT meetings are structured to attain valuable input from community and staff.

**Problem Statements Identifying School Processes & Programs Needs**

**Problem Statement 1**: Parents report some inconsistency with communication. **Root Cause**: Although we provide multiple communication tools, I believe that some parents don't really know how to access some of the communication tools and honestly it can be overwhelming for parents, especially if they have multiple students on different campuses.

**Problem Statement 2**: Academic concerns are often thought to be our students' primary need, but when digging deeper, you can find that it is often social and emotional needs that are causing the issues. **Root Cause**: Sometimes the pressure from peers, family, school and community are the root cause.

**Perceptions**

**Perceptions Summary**

All staff were invited to participate in a school culture and climate survey for the second year in a row. The survey indicated that the majority of teachers continue to be satisfied with their jobs and THS. They say the climate is very much one of a family atmosphere. They asked that administration be more visible and be more consistent with discipline issues and student and staff dress code. They also expressed concern with recognizing teachers individually more frequently than globally. They felt like everyone needs to hear specific feedback when they are doing a good job. They also spoke about wanting THS to get back to holding students more accountable for learning, having high expectations for both academics and behavior. The survey results also indicated that school leadership has promoted a clear vision and direction for Taylor High School. Additionally, the survey indicated positive results in the areas of leadership opportunities, opportunities to provide feedback, and a collegial and congenial enviroment. Concerns regarding support of student discipline and the efficacy of our tardy policy were also noted.

The staff continues to want the Principal to be open minded, listen, communicate well, be visible and have an open door policy.

Taylor has a high level of community engagement. Parents are always willing to step up and help out the faculty when there is a need. We have a strong TPA, which is always looking to assist with the culture of the campus as well as monetary needs. We have strong booster clubs in Athletics and Fine Arts. The families want to be communicated with and want be a part of the school environment.

**Perceptions Strengths**

Staff Survey (Energage)
Taylor High School
Generated by Plan4Learning.com
- Majority of respondents agreed or strongly agreed that the principal has established a clear vision or direction for the school.

- A little over half of respondents agreed or strongly agreed that administrators provide effective instructional leadership.

- Most of respondents agreed or strongly agreed that there were many opportunities to grow as a leader.

- Majority of respondents agreed or strongly agreed that THS has a friendly and collegial atmosphere.

- Most of respondents agreed or strongly agreed that they have opportunities to provide useful feedback to school leaders.

Other activities or indicators:

Strong Instructional Coaches

Strong Department Chairs

Staff memo focusing on current events, C&I practices, and campus news.

Communication Tools: Canvas, Teacher Web, Library Newsletter, Taylor High School web site, Twitter, Remind 101.

Principal Twitter account used for professional learning ideas and communications.

2018 Strengths

- School Environment (people want to come to work)

- Capturing Kids Hearts (about 70% of staff are trained)

- Implementation of Character Strong.

- High Expectations

Other activities or indicators:

Principal-led book study with staff members.

Staff memo focusing on current events, C&I practices, and campus news.

Communication Tools: Canvas, Library Newsletter, Taylor High School web site, Twitter, Remind, E-News

Community Strengths
Problem Statements Identifying Perceptions Needs

Problem Statement 1: The learning community easily places such emphasis on the highest performing students that the average student can get overlooked and even under served. There is a need for a campus wide character development program that will build community and help make every student and staff member feel included, accepted, and supported. Character Strong will be used to meet this need. Root Cause: Lack of emphasis on the individual as an important entity aside from looking at their academic performance level alone.
Priority Problem Statements
Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

**Improvement Planning Data**
- District goals
- Campus Performance Objectives Summative Review from previous year
- Current and/or prior year(s) campus and/or district improvement plans
- Campus and/or district planning and decision making committee(s) meeting data
- State and federal planning requirements

**Accountability Data**
- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations
- Federal Report Card Data
- PBMAS data

**Student Data: Assessments**
- State and federally required assessment information (e.g. curriculum, eligibility, format, standards, accommodations, TEA information)
- State of Texas Assessments of Academic Readiness (STAAR) current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR EL Progress Measure data
- Texas English Language Proficiency Assessment System (TELPAS) results
- Postsecondary college, career or military-ready graduates including enlisting in U. S. armed services, earning an industry based certification, earning an associate degree, graduating with completed IEP and workforce readiness
- Advanced Placement (AP) and/or International Baccalaureate (IB) assessment data
- SAT and/or ACT assessment data
- PSAT and/or ASPIRE
- SSI: Think Through Math assessment data for Grades 3-8 and Algebra I (TEA approved statewide license)
- Student failure and/or retention rates

**Student Data: Student Groups**
• Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
• Economically disadvantaged / Non-economically disadvantaged performance and participation data
• Male / Female performance, progress, and participation data
• At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
• EL/non-EL or LEP data, including academic achievement, progress, support and accommodation needs, race, ethnicity, and gender data
• Career and Technical Education (CTE), including coherent sequence coursework aligned with the industry-based certifications, program growth and student achievement by race, ethnicity, and gender data
• STEM/STEAM data
• Dyslexia Data

Student Data: Behavior and Other Indicators
• Completion rates and/or graduation rates data
• Annual dropout rate data
• Attendance data
• Discipline records
• Violence and/or violence prevention records

Employee Data
• Professional learning communities (PLC) data
• Staff surveys and/or other feedback
• Teacher/Student Ratio
• State certified and high quality staff data
• Campus leadership data
• Professional development needs assessment data
• Evaluation(s) of professional development implementation and impact
• TTESS data

Parent/Community Data
• Parent surveys and/or other feedback
• Parent engagement rate
• Community surveys and/or other feedback

Support Systems and Other Data
• Organizational structure data
• Budgets/entitlements and expenditures data
## Goals

**Goal 1:** All learning environments will foster engagement by integrating personalized learning experiences.

**Performance Objective 1:** Increase the Domain II score (Student Progress) from 87 in academic growth and 88 in relative performance to 90 in both.

**Evaluation Data Source(s) 1:** State Accountability Report 2020
