

## **Katy Independent School District**

Wolfe Program Design Committee

February 24, 2010

### **NOTES**

- Scooter McMeans and the Transportation Department heads returned with information regarding a delayed bell schedule and the cost of transportation if more central locations were set up for buses. After a lengthy discussion the committee's recommendation was to not provide busing to the Wolfe location unless it was now being provided in the current route. The bell schedule will follow the current KISD bell which is: Elementary 8:20-3:40 and Secondary 7:30-2:35. It was further decided to include the details of the plans investigated in the official recommendation made to Mr. Frailey and the Board for possible consideration in bond referendum planning.
- The Enrollment/Application process was to have been discussed but, will have to be brought forward to the next meeting.
