

# **CELL PHONE PROCEDURE**

**(The following statement must be read prior to beginning each day of testing.)**

Katy ISD policy states that high school students are only allowed to have telecommunication devices at school if they are turned off and are not visible. Telecommunication devices that are seen or heard will be confiscated and returned to students according to District policy.

During state and local testing, students must follow the Texas Education Agency and District policies concerning cell phones and other telecommunication devices. If your telecommunication device is seen or heard during today's test, it will be confiscated. If your telecommunication device is confiscated, your test booklet and answer document will be collected and your test will not be scored. At this time, if you have a telecommunication device, please make sure that it is turned off and placed out of sight.
