2nd Semester Schedules

Please be aware that 2nd semester schedules are independent of 1st semester. Ideally we would love for students to stay where they are, however there will be instances where schedules may change. Changes may occur due to course availability or semester electives chosen that are only offered at certain times of the day. When our computer program loads the schedules, it may place some students into different class periods or even with different teachers. When a schedule adjustment occurs, counselors do their best to keep the same teachers and class periods if at all possible. There will be changes that are out of the counselors' control in order to get all students into their classes. We appreciate your patience and understanding.
