WHY DO I NEED TO SAVE IF I HAVE TEACHER RETIREMENT?

Your pension may not replace all of your income in retirement. The average retiree receives 60-65 percent of their income at retirement. For example, if your current salary is $5,000 per month and your retirement benefit equals 65 percent of your current salary, you will receive $3,250 each month. However, TRS research indicates that retirees must receive 90-95 percent of their income in retirement to maintain their current standard of living. In the above example the member has a shortfall of $1,750 per month.

WHY SHOULD I CONTRIBUTE TO A 403(B) PLAN

• Bridge your retirement income gap
• Lower your taxes
• Automatic saving; Payroll deducted

TO ALL SCHOOL DISTRICT EMPLOYEES:

As your 403(b) Plan Administrator, we’d like to make you aware of your eligibility to participate in your employer’s 403(b) retirement plan. The 403(b) plan (often called a “tax-sheltered annuity” or TSA) is a voluntary plan that allows you to defer a portion of your paycheck to a retirement plan.

This is a great benefit offered by your employer to help you bridge your retirement income gap and lower your taxes. Under federal tax law, you do not have to pay income taxes on your contributions or account earnings until you take the money out of the plan.
