

General Project Information

Underground Storage Tanks

Project: Underground fuel tanks

Project Description: Retirement of aging fuel equipment at East and West Transportation Centers to remain in compliance with EPA and TCEQ regulations.

Project Priority: 1

Background & Justification:

- Retirement of aging fuel equipment at East and West Transportation Centers to remain in compliance with EPA and TECQ (Texas Commission on Environmental Quality) Regulations;
- Insurance requirements;
- Moving existing stations to areas safely away from school/transportation centers.
