

General Project Information

Campus Retrofit – August 2019 to July 2020

Project: Campus Technology Retrofit and Upgrades

Project Description: Refresh and upgrade campus technology: all campuses are on a 5-year technology refresh life-cycle. All equipment reaching end-of-life in classrooms, labs and administrative areas which includes projection systems, desktops, laptops, tablets, document cameras, and printers will be replaced.

Project Priority: 1

Background & Justification: All campuses are on a 5-year technology refresh life-cycle. This includes upgrading instructional technology in our classrooms and office technology in administrative areas for schools who reached the end of the 5-year cycle. All equipment reaching end-of-life in classrooms, labs and administrative areas which includes projection systems, desktops, laptops, tablets, document cameras, and printers will be upgraded.
