

Miller Career & Technology Center is inviting all freshmen to tour their campus and learn about their programs offered during students' junior and/or senior year. Cinco Ranch will be taking interested 9th graders to tour Miller Career & Technology Center on **Thursday, October 14, 2021**.

If you would like your son/daughter to participate, please have your child pick up a Katy ISD Field Trip Form from the 9th Grade or Main Campus Counselor's Office. The permission form must be turned into the Cinco Ranch High School 9th Grade or Main Campus Counselor's Office by **Tuesday, October 5, 2021**. In order to attend, your child **MUST** submit a signed permission form. Permission forms will only be accepted in person. Due to the large size of the freshman class, space for the field trip is limited and priority will be given in the order permission forms are turned into the Counselor's Office. This is an optional field trip so if your child cannot attend, they can review the Miller Career & Technology Center programs at the link provided.
