

Jordan High School Athletic Training

Student Athletic Trainer Tryouts 2023-2024

Student athletic trainers assist the staff athletic trainers with prevention, assessment, emergency care, and rehabilitation of athletic injuries. They gain knowledge in first aid, CPR, emergency care, injury assessment, treatment, and rehabilitation through academic and practical experiences. Student athletic trainers cover practices and games and are the first on the scene to assist the staff athletic trainers with injuries. Student athletic trainers care for athletes from the beginning of an injury to return to sport. In this program they will learn responsibility, time management skills, and make lifelong friends on a team dedicated to the health and safety of athletes.

If you are interested in being a part of the Athletic Training Team, you must turn in a completed application by April 8th 2023.

There will also be an in-person tryout portion. You must have a physical dated after May 1st, 2023 uploaded into RankOne.com, and all [RankOne.com](https://www.rankone.com) electronic forms filled out to participate.

		
Application	Physical Form	Rankone eforms/uploads

The team is picked based on grades, conduct, teacher recommendations and tryout participation.
