

OVERVIEW

The Audio Video Production program provides students with the knowledge and skills needed to enter a career in the production of audio and visual media. Students will learn techniques in videography, audio, editing, lighting, script writing, and motion graphics while gaining an understanding of the film industry. The program focuses on pre-production, production, and post-production video and audio activities.

AVAILABLE INDUSTRY CERTIFICATIONS

Students have the opportunity to earn Industry Based Certifications. These certifications help students stand out in interviews, help students gain confidence in a subject area, and give students valuable experience in preparing for the level of rigor required for industry certification exams they may face in the future.
