OVERVIEW

The Audio Production program provides students with the knowledge and skills needed to enter a career in the production of audio media. Students will learn techniques in audio production, digital communications, editing, and audio engineering while gaining an understanding of the audio recording and sound recording industries. The program focuses on pre-production, production, and post-production audio activities.

AVAILABLE INDUSTRY CERTIFICATIONS

Students have the opportunity to earn Industry Based Certifications. These certifications help students stand out in interviews, help students gain confidence in a subject area, and give students valuable experience in preparing for the level of rigor required for industry certification exams they may face in the future.

Adobe Certified Professional Premiere Pro
Students who enroll in Audio Video Production I have the opportunity to earn this certification.

NOCTI Audio Visual Communications Job Ready Certification

Students who enroll in Digital Audio II at Miller Career and Technology Center have the opportunity to earn this certification.

Dante Certification

Students who enroll in Practicum in Digital Audio at Miller Career and Technology Center have the opportunity to earn this certification.
