

OVERVIEW

The Clinical Rotations program prepares students for careers in the healthcare field. The program focuses on preparing students for a wide variety of health careers. Students will gain knowledge in the therapeutic, diagnostic, health informatics, support services and biotechnology research and development systems of the health care industry. Students that participate in the course visit various clinical sights and shadow with healthcare workers to help them see the many careers available within the healthcare field.

AVAILABLE INDUSTRY CERTIFICATIONS

Students have the opportunity to earn Industry Based Certifications. These certifications help students stand out in interviews, help students gain confidence in a subject area, and give students valuable experience in preparing for the level of rigor required for industry certification exams they may face in the future.
