

OVERVIEW

The Emergency Medical Technician (EMT) program prepares students for careers as Emergency Medical Technicians. Students will gain the knowledge needed to provide basic life support and emergency care such as CPR, AED, patient assessment, bandaging and splinting, airway management, medication administration, and oxygen therapy. Students that participate in the course shadow EMT's to help them gain real-world experience and EMT's learn more about what a career as an EMT would be like.

AVAILABLE INDUSTRY CERTIFICATIONS

Students have the opportunity to earn Industry Based Certifications. These certifications help students stand out in interviews, help students gain confidence in a subject area, and give students valuable experience in preparing for the level of rigor required for industry certification exams they may face in the future.

Emergency Medical Technician

Students who enroll in Emergency Medical Technician at Miller Career and Technology Center have the opportunity to earn this certification.
