

OVERVIEW

The Pharmacy Technician program prepares students for careers as Pharmacy Technicians. Students will gain the knowledge needed to work in the Pharmacy Technician field such as pharmacy law and regulations, pharmaceutical terminology, medication preparation, inventory management, patient safety, and the licensing and career requirements. Students that participate in the course shadow Pharmacists at local Pharmacies to help them gain real-world experience and learn more about what a career as a Pharmacy Technician and Pharmacist would be like.

AVAILABLE INDUSTRY CERTIFICATIONS

Students have the opportunity to earn Industry Based Certifications. These certifications help students stand out in interviews, help students gain confidence in a subject area, and give students valuable experience in preparing for the level of rigor required for industry certification exams they may face in the future.

Certified Pharmacy Technician

Students who enroll in Pharmacy II at Miller Career and Technology Center have the opportunity to earn this certification.
