

# OVERVIEW

The Plant Science program focuses on the science, research, and business of plants and other living organisms including Floral Design. The program includes courses that apply biology and life science to real-world plant processes, both in the field and in laboratories.

## AVAILABLE INDUSTRY CERTIFICATIONS

Students have the opportunity to earn Industry Based Certifications. These certifications help students stand out in interviews, help students gain confidence in a subject area, and give students valuable experience in preparing for the level of rigor required for industry certification exams they may face in the future.

### **Benz School of Floral Design**

Students who enroll in Floral Design have the opportunity to earn this certification.

# OVERVIEW

The Environmental and Natural Resources program of study focuses on the research, design, and planning of environmental hazards. It also includes research to identify and eliminate sources of pollutants that affect the environment and human health.

## AVAILABLE INDUSTRY CERTIFICATIONS

Students have the opportunity to earn Industry Based Certifications.
