

OVERVIEW

The Video Production program prepares students for careers in the growing film & video industry. Students will learn techniques in video production, digital communications, editing, and video engineering while gaining an understanding of the film and sound industries. The program focuses on pre-production, production, and post-production video activities.

AVAILABLE INDUSTRY CERTIFICATIONS

Students have the opportunity to earn Industry Based Certifications. These certifications help students stand out in interviews, help students gain confidence in a subject area, and give students valuable experience in preparing for the level of rigor required for industry certification exams they may face in the future.

Adobe Certified Professional Premiere Pro

Students who enroll in Audio Video Production I have the opportunity to earn this certification.

Adobe Certified Professional Photoshop

Students who enroll in Film I Advanced A/V Production at Miller Career and Technology Center have the opportunity to earn this certification.

Adobe Certified Professional After Effects

Students who enroll in Film II Practicum in A/V Production at Miller Career and Technology Center have the opportunity to earn this certification.
