1:02-2:14PM

**FACILITATOR:**

HC Grimet

**IN ATTENDANCE**

See Attached list

**MEET AND GREET**

This meeting is required to be recorded and posted to the SHAC website within 10 days.

**KISD EMERGENCY MANAGEMENT SAFETY UPDATES**

William E. Robins spoke about the latest bond approval and safety updates. He reported that the following security and safety upgrades have already began on our campuses. Currently all campuses are having all exterior doors and windows harden. Most elementary campuses have been completed and they are now moving on to secondary campuses. Film is being added to all exterior windows and doors making it more difficult for breakings. There is currently an audit for campus security. Auditors walk up to campuses to see how easy it is to get into campuses. They look at physical entry and how staff manage different situations. Mr. Robins has seen splendid work from our security guards throughout campuses. There are also fencing upgrades happening around the district.

**SPRING BRANCH COMMUNITY HEALTH CENTER**

Paulina Avila-Martinez spoke about Spring Branch Community Health services. She noted that different services for families, such as woman's health, pediatrics, behavioral health, and dental are available to the community. Some of the programs also include nutrition education and cancer education. They have eight clinics. They offer vaccination and back to school drives. The mobile units are available for health screenings such as blood pressure, HIV, and glucose testing. They are available for Mobil Health fairs such as

CATCH nights and 100 days of school. The Katy mobile pop-up is coming up. It will be located in front of the Katy clinic starting in February.

### **DATA PROJECTIONS LU INTERACTIVE PLAYGROUND**

Sandy Hill spoke about the LU Interactive Playground. This is an interactive playground that can be used in any space such as a gym, classroom, or library. There are two different units that are sold. One can be projected on the wall and the other is a floor unit. The floor unit is easy to set up, portable, and comes with everything needed. There are lots of activities to choose from for all ages. Everything is customizable from the educational content to the level of physical activeness. Different templates are also available for teachers to create their own game.

### **ANNOUNCEMENTS**

None

### **NEXT MEETING**

March 7, 2024, 1:00-2:30 at the Food and Nutrition Department building.
