

# General Project Information

## **Flooring Replacements**

Project: Flooring replacement

Project Description: Replacement of flooring surfaces at the identified campuses.

Campuses identified for flooring replacement are: MRHS, KHS, West Trans., DWE, SE, RES, USE, MRE, MDJH, MRJH, SLHS, RRE, LMC, BDJH, JEE, FES, RES, OAC, CRJH and SES.

Project Priority: 1

Background & Justification: The District replaces carpet and vinyl flooring surfaces on a 15-year schedule. This keeps the appearance of the floor surfaces in good repair and safe from slips, trips, or falls from worn surfaces. The old carpet is recycled into new carpeting by the manufacture, saving the District funds on debris disposal. Ceramic tile flooring that is no longer repairable is replaced with new flooring material that requires less floor maintenance and safer for students and staff.
