

General Project Information

Scoreboard & Sound System Replacements

Project: Competition gym component replacements

Project Description: Replacement of the scoreboards and sound systems at the identified campuses.

Campuses identified to receive score board replacements: MRHS, MPJH, MMJH, MRJH, CRJH, BDJH, and practice gyms at MCHS and MPJH.

Campuses identified for sound system replacements: KHS, MRHS, MMJH, MRJH, CRJH and BDJH.

Project Priority: 1

Background & Justification: The scoreboards at the identified campuses have exceeded their 15-year life cycle and become expensive to keep operable. The sound systems at the identified campuses have exceeded their life cycle expectancy of 10 years and require frequent repairs to remain operable. Both of these components will be replaced with equipment that uses newer technologies, is designed for the constant use in the competition gyms, and is energy efficient.
