

General Project Info

Portables

Project: Replacement of portable buildings

Project Description: Replacement of 12 portable classroom buildings.

Project Priority: 1

Background & Description: There are 334 portable classroom buildings in the District being utilized to manage the student growth and program needs. The District has 25 portable classrooms that are 25 to 40 years old and still in service as classrooms. Twelve of these buildings are designated “critical need for replacement” due to age, student safety, and cost of recurring repairs. The buildings will be removed from the District’s inventory.
